#### **RESOLUTION BY THE**

### SALISBURY/WICOMICO METROPOLITAN PLANNING ORGANIZATION COUNCIL ADOPTING THE FY 2017 – FY 2020 (Maryland) and FY 2016- FY 2019 (Delaware) TRANSPORTATION IMPROVEMENT PROGRAM RESOLUTION 01-2016

WHEREAS, the Salisbury/Wicomico Metropolitan Planning Organization (S/WMPO) was established to conduct regional transportation planning for the S/WMPO area in accordance with Federal requirements;

WHEREAS, the S/WMPO Council is the governing body for the S/WMPO;

WHEREAS, the Maryland Department of Transportation (MDOT), Delaware Department of Transportation (DelDOT), and the S/WMPO prepared the FY 2017 – FY 2020 (Maryland) and FY 2016 – FY 2019 (Delaware) Transportation Improvement Program (TIP) for the S/WMPO Area in compliance with applicable Federal programs and regulations;

WHEREAS, the FY 2017 – FY 2020 (Maryland) and FY 2016 – FY 2019 (Delaware) TIP was reviewed by the S/WMPO Technical Advisory Committee, which made a favorable recommendation to forward the document to the S/WMPO Council for their review and action; and

WHEREAS, the FY 2017 – FY 2020 (Maryland) and FY 2016 – FY 2019 (Delaware) TIP was available for public review and comment for a period of no less than 15-days prior to an action of the S/WMPO Council at an advertised public hearing on March 10, 2016, which no public comments were received; and

NOW, THEREFORE, BE IT RESOLVED the S/WMPO Council does hereby adopt the FY 2017 – FY 2020 (Maryland) and FY 2016 – FY 2019 (Delaware) TIP, dated March 10, 2016, for the S/WMPO Area.

Date

Matthew E. Creamer, Chairman, S/W MPO Council

### SALISBURY/WICOMICO METROPOLITAN PLANNING ORGANIZATION TRANSPORTATION IMPROVEMENT PROGRAM MARYLAND FY 2017-2020 and DELAWARE FY 2016-2019

#### INTRODUCTION

As a result of the 2010 U.S. Census, the Maryland portion of the Urbanized Area for the Salisbury/Wicomico Metropolitan Planning Organization (S/WMPO) includes the City of Salisbury, City of Fruitland, Town of Delmar (Md. & De.), Town of Hebron, and adjacent unincorporated areas of Wicomico County, Md. and Somerset County, MD. The Town of Delmar, Town of Laurel, Town of Blades, City of Seaford, and portions of unincorporated Sussex County, De. are located in the portion of the S/WMPO's Urbanized Area in Delaware. The Metropolitan Planning Area boundary, which includes the Urbanized Area, is a larger area including anticipated growth areas of the member jurisdictions for the next 20 years.

The population of the 2010 Urbanized Area as defined by the U.S. Census Bureau was 98,081 with 73,493 persons residing in Maryland (74.9%) and approximately 24,588 persons residing in Delaware (25.1%), as of the 2010 Census. A population of 50,000 or greater is required for designation of an urbanized area.

Since the 1960's the federal government has established urban transportation planning requirements in all metropolitan areas, as a prerequisite to the approval of federal funding (23 CFR Part 450 and 49 CFR Part 613). The regulations require a continuing, comprehensive and cooperative (3-C) planning process in all urbanized areas. The S/W MPO is the planning agency responsible for transportation planning within the identified planning area in accordance with federal regulations.

In 1991, the Intermodal Surface Transportation Efficiency Act (ISTEA) was passed. This act revised some of the established regulations and procedures and placed a new emphasis on Metropolitan Planning Organizations. As part of this Act the MPO planning process has been more specifically defined and new planning requirements have been prescribed.

In 1998, the Transportation Equity Act for the 21<sup>st</sup> Century (TEA-21) was passed continuing the initiatives of the 1991 Act and adding several new provisions and programs.

In 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was passed, building on the foundation established by ISTEA and TEA-21 and representing the largest surface transportation investment in the Nation's history. SAFETEA-LU expired in 2009 and after a series of Continuing Resolutions, Moving Ahead for Progress in the 21<sup>st</sup> Century (MAP-21) was signed into law by President Barack Obama in July 2012.

MAP-21 is a two year bill that seeks to build on and refine many of the highway, transit, bike and pedestrian programs and policies established by ISTEA in 1991. MAP-21 seeks to focus the federal aid program on the following national goals:

- 1. Safety;
- 2. Infrastructure;
- 3. Congestion Reduction;
- 4. System Reliability;
- 5. Freight Movement and Economic Vitality:
- 6. Environmental Sustainability; and
- 7. Reduced Project Delivery Dates.

This Transportation Improvement Program (TIP), which is a component of the prescribed Metropolitan Planning Process, is a compendium of all federally-funded and regionally significant transportation projects that have been

programmed for a four-year period for the Salisbury Urbanized Area. This TIP was available for a 15-day review and comment by the public, which is consistent with the Organization's Public Participation Program. The FY 2017 – FY 2020 (MD Portion) and FY 2016 – FY 2019 (Delaware portion), Transportation Improvement Program was reviewed and adopted by the S/WMPO Council on March 10, 2016.

### **Organization and Management**

#### **Metropolitan Planning Organization**

The S/W MPO was designated by Maryland Governor Robert L. Ehrlich on February 19, 2004, and is the primary agency responsible for transportation planning within the MPO's Planning Area. Amendments to the Prospectus and Bylaws to expand the voting membership representing Delaware jurisdictions and governmental agencies on the Technical Advisory Committee and Council were approved on November 24, 2015.

The primary governing body of the S/W MPO is the Council, which consists of twelve (12) voting members. The voting members consist of representatives from the following governments and agencies:

Maryland Department of Transportation (1 position)
Wicomico County (3 positions)
City of Salisbury (2 positions)
City of Fruitland (1 position)
Town of Delmar, MD (1 position)
Tri-County Council for the Lower Eastern Shore of MD (1 position)
Delaware Department of Transportation (1 position)
Sussex County (1 position)
City of Seaford (1 position)

#### **Technical Advisory Committee (TAC)**

The S/W MPO Council has established a Technical Advisory Committee (TAC) comprised of technical representatives to provide technical expertise and develop recommendations to assist the Council by reviewing and recommending revisions to the planning process, data collection, forecast, the Long-Range Transportation Plan, the Transportation Improvement Program and the Unified Planning Work Program. The current TAC voting membership includes representation from the various member jurisdictions, as well as from transportation organizations and relevant state agencies. The TAC includes representation from all modes of transportation in addition to various levels of government, which their expertise affords the opportunity to achieve a unified transportation planning effort.

#### **MPO Staff**

The S/WMPO Administrator is an employee of the Salisbury-Wicomico Department of Planning, Zoning and Community Development. The S/WMPO Administrator manages the daily operations of the S/WMPO as directed by the Council and recommendations of the TAC, and coordinates all planning projects and activities identified by the Council. The S/WMPO Administrator is the local liaison to the State and Federal agencies involved in transportation planning consistent with the requirements of a Metropolitan Planning Organization.

#### **Organizational Procedures and Bylaws**

The S/WMPO operates under an adopted set of Bylaws, which were last amended on November 24, 2015. Wicomico County provides support services to the S/WMPO, including legal, and financial and purchasing services,

Staff performing these services operate under the rules and procedures of Wicomico County and the State of Maryland. The S/WMPO's official records are maintained in the Salisbury-Wicomico County Department of Planning, Zoning and Community Development's offices in Room 203 of the Government Office Building, North Division Street and U.S. Route 50, Salisbury, MD, 21803. The S/WMPO records are available for public inspection during normal business hours, Monday through Friday, 8:00 AM to 5:00 PM.

### SALISBURY/WICOMICO METROPOLITAN PLANNING ORGANIZATION

#### PUBLIC PARTICIPATION PROCESS

The Salisbury/Wicomico Metropolitan Planning Organization Council is the policy body for transportation planning in the Metropolitan Area and meet as needed to conduct S/WMPO business such as approval of the annual Unified Planning Work Program (UPWP) and the Transportation Improvement Program (TIP). The Council also acts to amend these documents as necessary. The Council meetings are advertised on the S/WMPO website, local newspaper, PAC 14 and are open to the public. Opportunities for the public to comment on S/WMPO issues are provided at the meetings. The S/WMPO Council held a public hearing on the FY 2017 – FY 2020 (Maryland portion) and FY 2016 – FY 2019 (Delaware portion) TIP at their meeting on March 10, 2016, to receive comments from opponents and proponents of the Plan. Consistent with the Organization's Bylaws, the proposed TIP was available for public review and comments, 15-days in advance of an action, on the Organization's website www.swmpo.org.

In compliance with SAFETEA-LU and as part of the FY 2008 UPWP, a Public Participation Plan has been developed and was adopted in June 2008, and amended on November 30, 2011. This Plan documents and formalizes the public participation process, which is conducted for all S/WMPO activities including the development, review and approval of the TIP. Specifically, the Plan requires a 15-day public comment period for the TIP, which includes amendments. Moreover, the Plan requires a Public Hearing of the S/WMPO Council, as well as advertising notice of the Public Hearing in the Daily Times 14-days in advance of the meeting and the Organization's website (swmpo.org).

#### PROJECT PRIORITIZATION

Maryland's small MPO's, which are staffed by County Planning Offices, do not have formally defined project prioritization processes. However, the MPO's have a role in the development of the Maryland Consolidated Transportation Program (CTP) containing all of the projects programmed in the Metropolitan Transportation Improvement Programs.

In addition to the frequent and in some cases daily coordination and consultation between S/WMPO Administrator and MDOT, there are several mechanisms for reaching consensus on the programming of local transportation projects as follows:

- Maryland Association of Counties & Maryland Municipal League: These two organizations meet annually and provide both formal and informal opportunities for local elected officials and County representatives in the State to share and discuss transportation needs. MPO policy body members are members of these groups.
- Secondary Program Priority Letter: State and local elected officials are encouraged to reach consensus on local priorities for the secondary highway system and to document these priorities in a letter to the State Highway Administration. The priorities become candidates for funding and inclusion in the CTP.
- Annual Consolidated Transportation Program (CTP) Tour: In the Fall of every year the Secretary of Transportation and the Department's modal administrators visit each of the State's 23 counties and Baltimore City to present and solicit input on the Draft CTP from local elected officials, state legislators and citizens. Information obtained at these meetings is used in the development of the final CTP that is presented to the General Assembly for approval at the beginning of the 90-day legislative session in January. Since County elected officials are members of all of Maryland's small MPO policy boards, the MPOs are represented and consulted during the annual CTP Tour.

### DELAWARE FY 16 – FY 19 TRANSPORTATION IMPROVEMENT PROGRAM

BRIDGE	AND BRI	DGE RE	EHABILI	TATION

### BR 3-152 on Central Avenue and BR 3-161 on Poplar Street over Broad Creek

Project Scope/Description: The project involves the rehabilitation of both bridges. The work for Bridge 3-152 includes the replacement of the main steel superstructure with concrete beams with a concrete deck. The new beams will sit on new abutments constructed behind the existing abutments. The existing counterweight and steel girders will remain in place to maintain the bridges historic character. The work for Bridge 3-161 includes painting the existing steel and repairs to the pier and abutment to fix the bridge permanently. Both bridges will be closed during construction, although not at the same time. Both bridges will be fixed in place after construction.

Project Justification: Bridges 3-152 and 3-161 both are structurally deficient. Bridge 3-152 is the primary entry route into downtown Laurel, on US 13A, and is currently posted for 13 tons. This bridge needs to be capable of safely carrying all DE legal loads including fire and rescue. BR 3-161 is currently posted for 15 tons and needs rehabilitation. Both bridges have been identified as needing work by the Pontis Bridge Management System. Rehabilitation of these bridges will help the Department meet its performance measure for percentage of bridges in poor condition. These bridges are ranked on the 2015 DelDOT Bridge Deficiency List (out of 1625 total bridges) as follows: Bridge 3-152 is ranked 91st and Bridge 3-161 is ranked 106th.

### BR 3-253 N&S on US 13 over Williams Pond

Project Scope/Description: The project involves the rehabilitation of Bridge 3-253 N&S. The scope of work includes overlaying the existing concrete decks, replacing the existing joints, cleaning and greasing of the bearings, cleaning and painting of steel members, repair of cracks and spalls in the concrete piers and abutments.

Project Justification: The existing joints are in poor condition and there are spalls and delaminations in the backwall. The substructure requires minor repairs and the deck is showing signs of cracking. Replacing the joints, repairing the substructure, and sealing the deck will extend the life of the bridge. The bridge was selected by the Pontis Bridge Management System for work.

#### BR 3-299 on S013 Bi-State Blvd over Meadow Branch

Project Scope/Description: The project involves the replacement of the two (2) existing corrugated metal pipes with reinforced concrete pipes. Additional work includes the placement of riprap in the stream for scour protection and reconstruction of the approach roadway as necessary. Work will be performed under a full road closure with detour.

Project Justification: There is significant corrosion at the waterline with 100% section loss at several locations throughout the pipes. The existing pipes are structurally deficient and were selected by the Pontis Bridge Management System for work. Replacement of this bridge will help the Department meet its performance measure for percentage of bridges in poor condition. This bridge is ranked 1<sup>st</sup> on the 2015 DelDOT Bridge Deficiency List (out of 1,625 total bridges).

### **ROAD SYSTEM: ARTERIALS**

Road System: Arterials

### US 13, Seaford Intersection Improvements

Project Scope/Description: US 13, Seaford Intersection Improvements – The project includes the addition of turn lanes and the separation of shared movements at the following five (5) intersections along US Route 13 in the Seaford area:

US 13 / Tharp Road/ Herring Run Road (Sussex 534);

US 13 / Stein Highway (State Route 20);

US 13 / Middleford Road (Sussex 535);

US 13 / Concord Road (Sussex 20); and

US 13 / Oneals Road / Bethel Concord Road (Sussex 485).

Project Justification: The intersection improvements will reduce congestion and improve safety of the intersections at US 13 and Tharp Road/ Herring Run Road (Sussex 534), Stein Highway (State Route 20), Middleford Road (Sussex 535), Concord Road (Sussex 20), and Oneals Road / Bethel Concord Road (Sussex 485).
